

Ajay Raj Pratap Singh

Full-Stack Developer · DevOps & Cloud Engineer · 3D Web Specialist

Dehradun, India | +91-8433038283 | ajayrajnegi1608@gmail.com | [GitHub](#) | [LinkedIn](#)

Summary

Results-driven Full-Stack Developer and DevOps Engineer with 2+ year of freelancing experience building and shipping production-grade web applications. Proficient in TypeScript, React, Node.js, and cloud infrastructure (AWS, Docker, Kubernetes). Adept at leading end-to-end product development — from UI/UX design through API architecture, database modelling, CI/CD pipeline setup, and containerised deployment.

Internships & Experience

Software Developer - REDSAN

Jan 2024 – March 2025

- Independently designed, developed, and deployed **5+ client websites**, web apps, and **mobile apps** end-to-end, owning the full development lifecycle from architecture to deployment.
- Delivered production-ready client projects including [gaiaspace.co.in](#), [grihya.in](#), [maxpowerservices.com](#), and [seahawkadventures.com](#), translating design specs into fully functional, responsive applications.

Web Developer - Elite Estate's

Sep-2025 - December 2025

- Built and deployed a full-stack real-estate web platform connecting tenants, property owners, and brokers, enabling property listings, inquiries, and role-based access. [Easylease](#)
- Led end-to-end development including UI/UX design, backend APIs, and database integration, improving platform usability and reducing manual coordination by ~40%. [airportporterservice.ca](#)

Projects

VarTex - Full-Stack LMS [Demo](#)

Tech Stack: Next.js 16, React 19, TypeScript, Tailwind CSS, Prisma, PostgreSQL, Razorpay, AWS S3, Docker

- Engineered a production-grade Learning Management System using Next.js App Router, **React Server Components**, **Server Actions**, nested layouts, route handlers, and streaming to deliver an optimised full-stack user experience.
- Built a type-safe backend with **Prisma ORM** and **PostgreSQL**, designing scalable relational schemas for courses, enrolments, payments, and user management.
- Integrated **Razorpay** for secure payment processing and **AWS S3** for reliable media and course asset storage with server-side upload workflows.
- Optimised application performance through server-side rendering (SSR), selective client components, efficient data fetching, caching, and code splitting to reduce client-side JavaScript.

Easylease – Full-Stack Real Estate Platform | [Website](#)

Tech Stack: React 19, TypeScript, Laravel 12, Vite, Tailwind CSS, MySQL,

- Developed a production-ready full-stack real estate platform enabling users to discover, list, and manage properties with advanced search and map-based visualisation.
- Implemented secure authentication and role-based access, supporting property owners, agents, and administrators.
- Built real-time chat functionality with Pusher, allowing seamless communication between buyers and agents.

Gaiaspace - 3D Web Experience | [Live](#)

Tech Stack: React-Three-Fiber, Next.js, GSAP

- Engineered a high-performance 3D interactive website.
- Delivered smooth animations with GSAP and collaborated with the client for UI/UX alignment.

Skills

Languages: TypeScript, JavaScript, C++, Rust, Python

Frontend: React, Next.js, Angular, React Native, Three.js, GSAP, Framer-Motion

Backend & DB: Node.js, Laravel, MySQL, MongoDB, Prisma ORM, SQL

DevOps: AWS (EC2/S3), Firebase, Docker, Linux, Git, CI/CD Pipelines

AI: Langchain, Langraph, n8n

Education

B.Tech in Computer Science (CSE)

Uttaranchal University Dehradun | August 2022 - May 2026 | **CGPA:** 8.5/10
